THE RULE - FROM CANVA'S OWN HELP PAGE

"The most accurate delivery timeframe for your order is always the one shown at checkout." Read it before you pay. Production is 1-2 business days on top of shipping, plus one more if you order after 5 PM.

THE BUILD - 5 x 7 IN, PORTRAIT

File > Rulers and guides > Show margins. File > Settings > Show print bleed.
Bleed is 0.125 in (3.175 mm) on every side - Canva says it "cannot be adjusted".
Photo out to the bleed. Text and logos INSIDE the margins. Nothing across the fold.
Landscape card? Canva: "the panel for the back cover needs to be inverted".

Envelopes: neither Canva's US nor UK cards page says they're included - check, and order them too.

SEVEN CHECKS BEFORE YOU PAY

* 5 x 7, portrait
* The photo fills the front, out to the bleed
* All the words are inside the margins
* The inside message leaves space to sign
* **You READ the delivery date at checkout - and it is before 11 Dec (US) / 15 Dec (UK)**
* You went through the mock-up, inside and outside
* You know whether envelopes are included

The fifth is the one nobody does - the free option is already selected. Free and late is not free.
